SUMMARY

DevOps Engineer with 3.5 years of experience in process automation, continuous deployment, system administration, and monitoring. Expertise in Google Cloud Platform (GCP), Terraform, Ansible, and Kubernetes, ensuring scalable and reliable cloud infrastructures. Strong background in automation, CI/CD pipeline management, and infrastructure as code. Passionate about optimizing workflows and improving system efficiency.

EXPERIENCE

DevOps Engineer | 12/2022 - Current

Jio Platforms Ltd - Mumbai

- Built infrastructure using GCP resources, deploying technologies like Nginx, Redis, MongoDB, RabbitMQ, Docker, Node.js.
- Managed GCP infrastructure, including VMs, firewalls, GKE clusters, artifact registry, load balancers, and Memorystore Redis.
- Automated infrastructure provisioning using Terraform and managed server configurations with Ansible.
- Designed and implemented CI/CD pipelines with Docker and Azure Pipelines to streamline deployments.
- Developed Python scripts to track GCP resources and automate monitoring tasks.
- Created and managed Jenkins build tasks for automated scaling and deployments.
- Configured alerting systems and monitoring rules in GCP to maintain system health.
- Automated daily backups for MongoDB and Redis using shell scripting and cron jobs.
- Coordinated between application and security teams to maintain compliance and infrastructure security.
- Managed SSL certificate renewals and optimized GCP cost and usage reports for efficient resource allocation.

Graduate Engineer Trainee | 08/2021 - 12/2022

Jio Platforms Ltd - Mumbai

- Led a team to explore and implement automation solutions for various products.

- Worked in Jio.com & My Jio service validation, conducting usability, regression, and functionality testing.
- Identified and documented software defects, ensuring high-quality application releases.
- Conducted interviews for graduate hires, assessing their technical and problem-solving skills.

Product Development Intern | 08/2020 - 11/2020

Fabroid

- Designed user-friendly UI/UX for mobile applications.
- Developed and integrated frontend applications with backend databases (Firebase, MySQL).
- Gained hands-on experience in mobile app development and API integration.

SKILLS

Cloud & Infrastructure: Google Cloud Platform (GCP), Terraform, Ansible, Kubernetes, Docker

DevOps & Automation: CI/CD (Azure Pipelines, Jenkins), Git, Bash/Python scripting

Monitoring & Security: GCP Monitoring, Grafana, SSL Management

Operating Systems & Databases: Linux, Windows, MySQL, Firebase, MongoDB, Redis

Programming Languages: C, C++, Java, Python

EDUCATION

B.E. in Computer Engineering | University of Mumbai (Shah & Anchor Kuttchi Engineering College) | 2021 | CGPA: 7.4

Diploma in Computer Science | K.J. Somaiya Polytechnic | 2018 | Score: 75%

SSC (10th Grade) | Maharashtra State Board | 2015 | Score: 81%

CERTIFICATIONS & ACHIEVEMENTS

- Star Performance of the Year Award - Jio Platforms Ltd
- Spotlight Appreciation Award for Automation POC
- The Ultimate DevOps BootCamp 2023 - Udemy
- Introduction to Containers w/ Docker, Kubernetes & OpenShift - Coursera

VOLUNTEER EXPERIENCE & LEADERSHIP

- Discipline Category Head Volunteer - Managed event teams and ensured smooth execution during college fests.
