SUMMARY

DevOps Engineer with 3.5 years of experience in automating deployments, managing cloud infrastructure,

and optimizing CI/CD pipelines on Google Cloud Platform (GCP). Proven track record of reducing deployment time by 40%

and optimizing cloud costs by 20% through automation. Expertise in Terraform, Kubernetes, Ansible, and Jenkins,

ensuring highly scalable and reliable cloud architectures. Passionate about DevOps automation and improving system efficiency.

EXPERIENCE

DevOps Engineer | 12/2022 - Current

Jio Platforms Ltd - Mumbai

- Built & automated infrastructure deployment on GCP, including VMs, GKE clusters, load balancers, and Memorystore Redis.
- Developed CI/CD pipelines with Docker & Azure Pipelines, reducing deployment time by 40%.
- Implemented infrastructure as code (IaC) using Terraform & Ansible, improving efficiency by 30%.
- Created monitoring & alerting systems using GCP Monitoring & Grafana to reduce downtime by 25%.
- Automated daily backups for MongoDB & Redis, reducing manual effort by 80%.
- Managed SSL certificate renewals, ensuring 100% security compliance.
- Optimized cloud costs by 20% through effective resource scaling & monitoring.

Graduate Engineer Trainee | 08/2021 - 12/2022

Jio Platforms Ltd - Mumbai

- Led a team in automation POCs, streamlining manual DevOps tasks.
- Conducted service validation testing for Jio.com & MyJio to ensure seamless customer experience.
- Identified & reported critical software bugs, improving release stability.
- Conducted technical interviews for hiring graduate trainees.

Product Development Intern | 08/2020 - 11/2020

Fabdroid

- Developed mobile applications with Flutter and integrated Firebase & MySQL databases.

- Designed and implemented UI/UX-friendly interfaces for various client projects.

- Gained hands-on experience in API integration & frontend development.

PROJECTS

Kubernetes-based Microservices Deployment

- Automated deployment of microservices on GKE, improving system availability by 99.9%.

- Implemented Helm charts for easy application deployment and scaling.

Infrastructure Automation with Terraform

- Developed reusable Terraform modules to deploy VMs, networks, and storage on GCP.

- Reduced provisioning time by 60% by automating infrastructure setup.

SKILLS

Cloud & Infrastructure: Google Cloud Platform (GCP), Terraform, Kubernetes, Docker
DevOps & Automation: CI/CD (Azure Pipelines, Jenkins), Ansible, Git, Bash/Python scripting
Monitoring & Security: GCP Monitoring, Grafana, SSL Management
Operating Systems & Databases: Linux, Windows, MySQL, Firebase, MongoDB, Redis

----

EDUCATION

B.E. in Computer Engineering | University of Mumbai (Shah & Anchor Kuttchi Engineering College) | 2021 | CGPA: 7.4
Diploma in Computer Science | K.J. Somaiya Polytechnic | 2018 | Score: 75%
SSC (10th Grade) | Maharashtra State Board | 2015 | Score: 81%

CERTIFICATIONS & ACHIEVEMENTS

- Star Performance of the Year Award - Jio Platforms Ltd

- Spotlight Appreciation Award for Automation POC

- The Ultimate DevOps BootCamp 2023 - Udemy

- Introduction to Containers w/ Docker, Kubernetes & OpenShift - Coursera

----

VOLUNTEER EXPERIENCE & LEADERSHIP

- Discipline Category Head Volunteer - Managed event teams and ensured smooth execution during college fests.
